AboutMe

I was introduced to coding in matric, as I had computer science as a subject. We learned a bit of coding, nothing serious just HTML & CSS. I decided that I would pursue web development at a private college in Bellville, named Prestige Academy. It changed my life; I knew coding was what I wanted to do with my life. I now try to better myself everyday through online courses, reading about coding and trying to understand as much as I can. My dream is to work for a well-established web development company where I can grow to my full potential, as well as helping the company grow in any way I can.

- Motivated, strong desire to learn.
- Ambitious, I want to succeed.
- Approachable, I work well with people.
- Curiosity, I love to learn more about coding.
- Determined, I am self-motivated.
- Devoted, I am committed to a company and want help the company succeed.

_____

ProfessionalExperience

HAUWEI, Somerset-mall, Somerset-West, Cape Town
Sales assistant, December 2018 – February 2019

Worked as a sales assistant for an extra income during holidays where I achieved a reward for *highest value-per-sale rate* made throughout the entire company in a month.

REFERENCE – Basil || basil@twotins.com

BOABAB Web Services, Durbanville, Cape Town
Junior Web Developer, January 2020 – April 2020

Worked as a junior developer for the company, in a fast-paced environment where the focus was to develop platforms using **Laravel**, **JavaScript**, **Bootstrap**, **html**, **CSS, GIT,** as well as **GitHub**. I also worked on sites making changes to the sites and maintaining them.

REFERENCE – Louis **||** ldt@bwsonline.co.za

DISA CLICK, Gordons Bay, Cape Town
Web Developer, September 2020 – November 2020

I was proposed into a partnership where another developer and I worked on 2 apps that we wanted to build, but because of covid-19 the start-up failed, we were retrenched and the partnership ended. These apps were going to be built using the MEAN stack. Since I was new in languages, I was instructed to do some courses on them and we were going to go from there, but unfortunately we never got to build the apps.
